To Whom It May Concern:

It gives me great pleasure to write this letter of recommendation for Megan Kaseman as a Spanish teacher. As part of a group of physicians, I have been taking medical Spanish classes with Ms. Kaseman since September of 2005, and I have been very impressed with her knowledge and skill.

In addition to being highly proficient and very knowledgeable in Spanish language acquisition generally and medical Spanish in particular, Ms. Kaseman is extremely responsive to students' specific needs. Our class decided that during this year we would focus on practical conversation with patients. Ms. Kaseman designed the curriculum to meet our needs, and I have noted my progress in office situations with patients. Our group consisted of 6 physicians with 5 different specialties, but Ms. Kaseman was able to find common ground for our lessons. Ms. Kaseman creates a fun atmosphere while addressing the needs of the class with a variety of creative activities.

My growing Spanish skills are a real asset in my practice. They help me to better serve and communicate with my Spanish-speaking patients. I recommend her as a Spanish teacher for any interested students.

Sincerely,

Richard L. Ellis, M. D.
Clinical Professor of Pediatrics
University of Wisconsin Medical School
