To Whom It May Concern:

I am writing to recommend Megan Kaseman for a position as a Spanish teacher. I participated in a Spanish for educators course that Ms. Kaseman taught from January to April of 2005 and was truly impressed with her knowledge, pedagogical skills and her overall dedication toward her work.

As a teacher myself, I appreciated Ms. Kaseman's energy and organization that accompanied each and every lesson. She sought the goals of the participants in the class and worked hard to help us reach our goals. This was not an easy task since the goals and overall proficiency levels of the students in the class varied. Megan facilitated successful learning by using a variety of teaching techniques, tailoring the curriculum to meet the needs and levels of the class participants, creating a fun and positive learning environment and providing helpful and specific feedback to the language learners in the class. She was always very well prepared with dynamic and engaging learning activities.

I have found the Spanish knowledge I gained in Ms. Kaseman's class to be a real asset in my professional work in teaching and supporting my Spanish-speaking students and their families. My only regret is that I did not have the opportunity to further continue my study of Spanish with Megan. I recommend her as a Spanish teacher for all students aspiring to learn Spanish, and in particular, for teachers. Please contact me with any further questions or for more information at (608) 829-9632.

Sincerely,

A handwritten signature in cursive script that reads "Jean Holman".
