

SAFE HARBOR CHILD ADVOCACY CENTER, INC.

August 24, 2006

To Whom It May Concern:

This letter serves as a recommendation for Megan Kaseman as a Spanish teacher. My agency staff and I participated in a Spanish class for social workers and therapists taught by Ms. Kaseman from February to April of 2006. Ms. Kaseman made the class room environment very comfortable for all of the participants. Several participants in the class had taken some previous Spanish classes and were hoping to do a "brush up" on their Spanish while others were very new to the language. Ms. kasemen had an exceptional ability to structure each class so that all participants felt comfortable with the curriculum and became familiar with using the Spanish language in a very supportive learning environment. I personally feel that my learning experience with Ms. Kaseman was very positive, productive, fun, engaging, worthwhile, and superior to other classes I have taken.

Ms. Kaseman demonstrated a great deal of skill and depth of knowledge regarding the Spanish language and its acquisition. She fostered a very positive classroom environment that made it much easier for all students to have a successful learning experience. It was obvious that she truly cared about her students language goals, and she showed passion and dedication in helping us achieve those goals. She enriched the curriculum with activities and vocabulary specifically designed to meet our needs. I was very impressed with her skill, knowledge, and dedication.

The progress that I made with Ms. Kaseman has been very helpful to me professionally. I have used what I learned with her, and it has been a real asset to my work at Safe Harbor. I recommend her as a Spanish teacher especially for social workers.
